

## Peterbilt 320 Eco-Pur Mounting Location

Select this location on the right side of the vehicle. It is located at the top of the support post. These 2 bolts will need to be removed and the Eco-Pur mounting bracket will mount using the 2 bolts in the "L" position. One of the holes in the Eco-Pur mounting bracket will need to be enlarged as the bolt hole pattern is slightly farther apart on the existing bolts.

This picture shows the unit orientation once mounted.
